

Gillespie County, America Needs YOU TO VOTE on Nov 5th!

“Make the Election Turn-out TOO BIG TO RIG!” *Donald J. Trump, GOP Convention, July 2024*

According to the Texas Secretary of State’s records, approximately 4,000 Gillespie County Republicans stayed home in 2020. THAT IS NOT ACCEPTABLE IN NOVEMBER!

How can you do your part to help change the voter turn-out?

Start by answering this basic question: Are YOU better off today than you were 4 years ago?

Elections are NOT personality or popularity contests. These offices and positions take YOUR money for taxes and they make rules that effect every aspect of YOUR daily life, and your children’s lives.

1. Before you vote, research the candidates, top to bottom of the ballot. Sample ballots available Sept. 23rd online at www.gillespiecounty.org/page/election_info or at the Election Administration Office 95 Frederick Rd. Suite 100, in Fredericksburg.
2. Where do they stand on the issues that impact YOU?
3. Does the candidate have the courage to stand against corruption and enforce our written laws?
4. Will they stand and fight for YOU?

It’s important to understand how the people we elect affect every level of government, *voting the entire ballot.*

MULTIPLY YOURSELF FOR CHANGE

1 PERSON

You X 5 = 5
5 x 5 = 25
25 x 5 = 125
125 x 5 = 625
625 x 5 = 3,125
3,125 x 5 = 15,625

Preserve the U.S. Constitution and the Bill of Rights and elect true Conservatives.

The Declaration of Independence states “all Men are...endowed by their Creator with certain unalienable Rights”, and the Founding Fathers believed that these rights are inherent to all people by virtue of being human. The Declaration of Independence lists life, liberty and the pursuit of happiness as unalienable rights. Congress and the current administration have made continuous attempts to restrict freedom of speech; religion; assembly; to bear arms; the right to a speedy and public trial by an impartial jury and more. These rights only became reality when the courageous patriots stood up in 1776, and fought to achieve them. The fight to retain these rights is ongoing and the first line of defense is well-informed voters. The attempts to pack the Supreme Court, limit their terms and expand the bench, indicates that progressive liberals intend to re-write our Constitution.

Economy - Reduce government spending and eliminate run away hiring within unelected agencies.

The U.S. \$35 TRILLION debt is bigger than the entire U.S. economy. At the end of 2023, the debt was 121% of GDP. The cost of living is up more than 42% since 2020. 8.7 million Americans are working 2+ jobs, just to put food on the table and fuel in the tank. Over regulation equals higher prices for food, fuel, insurance, housing, and healthcare. Meanwhile, illegals are receiving money and benefits not offered to American citizens. The Harris-Walz ticket wants to increase taxes and provide healthcare for all, including illegals, thus increasing taxes and inflation.

Border Security is National Security - Stop illegal border crossings and enforce Trump era immigration laws.

Almost 11 million individuals, 1.7 million "gotaways" and 100 people on the FBI Terror Watch List have entered Texas during the Biden Harris Administration. Fentanyl is the leading cause of death and the opioid crisis costs Texans \$20 BILLION a year. More than 400,000 unaccompanied children have been lost by BCP and DHS. Texans spend \$850,000,000 to support illegals every year and that number is growing.

2nd Amendment - Stop gun control laws that impede the rights of law-abiding citizens.

The right to protect one's home and family has turned into limiting the type of firearm and the number of rounds your magazine holds. Joe Biden imposed an un-Constitutional "executive order" creating a waiting period for males 18 to 20 years old. Laws should be for criminals, not to prevent legal gun owners from possessing firearms.

Crime - Fire the progressive Judges, legislators and prosecutors who have sabotaged the Rule of Law.

Criminals destroy entire neighborhoods because of Soros-backed prosecutors' "catch & release" policies. Violent crimes have increased, making our streets completely unsafe. Property values have plummeted. Businesses have left and neighborhoods have become ghettos. Victims suffer unimaginable mental and physical abuse and many have died.

Education - Return to basic fundamentals and give curriculum and content control back to parents.

Parents need to be put back in charge of their children's education and healthcare. Lack of emphasis on science, math, English and civics creates students unable to compete on a global stage. Programs like DEI and CRT create hostile learning environments, mental stress, and anti-Semitism, all while undermining American exceptionalism.

Gender - Reaffirm the traditional understanding of two sexes.

Stop the genital mutilation of our children. Honor the original intent of Title IX. Allowing biological males to utilize female bathrooms has led to sexual assaults. Biological males participating in female sports has crushed the purpose of women's sports, brutally injuring women in the process. Suicide rates among young children have soared to unthinkable levels.

Foreign Affairs - Make America First.

Considering taxpayer expense and American lives lost, America cannot afford to be the World's police. The Democrat's foreign affairs platform is not grounded in strength and diplomacy. Enough of the endless global wars. American strength creates world peace.

Environmental Freedom - Stop allowing 3-letter, unelected agencies to enact woke initiatives.

Government agencies headed and staffed by non-elected individuals are over-regulating the energy sector to "accommodate" false, man-made climate change objectives which affect U.S. security and the overall economy. The U.S. is more dependent on other countries for much of its energy needs. Americans are losing the right to buy vehicles that make financial sense for their families and forced to buy vehicles that do nothing to reduce the "carbon footprint". Trillions of dollars are being spent to scare you into giving them control.

Abortion - Support the Supreme Court's ruling Right to Life decisions left to the States.

Taxpayer dollars are being used to take the innocent lives of children around the world. Aborted babies' body parts are being sold to organizations for obscene amounts of money.

Election Integrity – One vote for every verified American citizen.

Texas must enforce the election laws, prosecuting those found tampering with ballots, the equipment or any part of the election process. This includes preventing false registrations, ballot harvesting and manipulating electronic tabulating systems.
